Professional Summary

IT support specialist and systems operations lead with hands-on experience in troubleshooting, infrastructure deployment, and client-facing technical services.

Professional Experience

IT Systems and Operations Lead

The Supreme Tech – Rancho Cucamonga, CA

Mar 2025 – Present

- *Acquired 5 business clients within 3 months and launched core MSP operations from scratch.*
- *Delivered 30+ IT resolutions across OS recovery, device imaging, Microsoft 365, and driver/hardware configuration.*
- *Implemented Syncro MSP, helped migration to ConnectWise PSA, improving ticket resolution time by approximately 40%.*
- *Designed and deployed tiered service offerings including backup monitoring, patch management, and RMM automation.*

Technical Support Specialist

Caring Family Medicine – Rancho Cucamonga, CA

Aug 2023 – Jan 2024

- *Provided daily technical support for 4 staff members, supporting clinical operations for 600+ active patients.*
 - *Maintained uptime and resolved issues across 3 printers, 7 workstations, and 2 wireless networks to ensure uninterrupted patient intake and billing workflows.*
 - *Implemented a digital Excel-based tracking system to replace 5+ paper forms, reducing documentation time by ~40% and minimizing input errors.*
 - *Standardized document categorization for scanned records (e.g. X-rays, prescriptions, billing, lab results), improving searchability and reducing misfiling.*
 - *Reviewed and cleaned over 1,000 rows of financial and medical data to ensure consistency for PCM and billing workflows.*
-
